

FUZION

beyond expectation

FuzGuard Technology Water Resistant Flooring

FuzGuard Core

55% more stable than a standard laminate core, this natural wood fiber combined with melamine resin and paraffin wax make it highly water resistant.

Truly Waterproof

TidalCore Water Defense Technology ensures your floor performs its best. Providing 100+ hours of surface water protection.

FuzGuard Nano-seal

Non-ionic high polymer sealer with nanometer particles penetrates all edges to resist water and moisture.

FuzGuard Stability

Ultra-stable approved to install over 6,000 sf without transition.

Antibacterial coating

Free of PVC, plasticisers, fully organic & treated to inhibit bacteria growth

Wear Resistance

Keep your flooring looking great even longer with our highly durable micro-scratch and fade resistant surface layer built right in!

Easy Installation

Whether installed upstairs or downstairs, no matter, installation is a breeze with these leading patented locking systems.
